

BRITISH ICELANDIC
SHEEP BREEDERS GROUP

Volume II 1989

OFFICERS

PRESIDENT:

Flock 1

CHAIRMAN:
(Flock Book

Flock 21

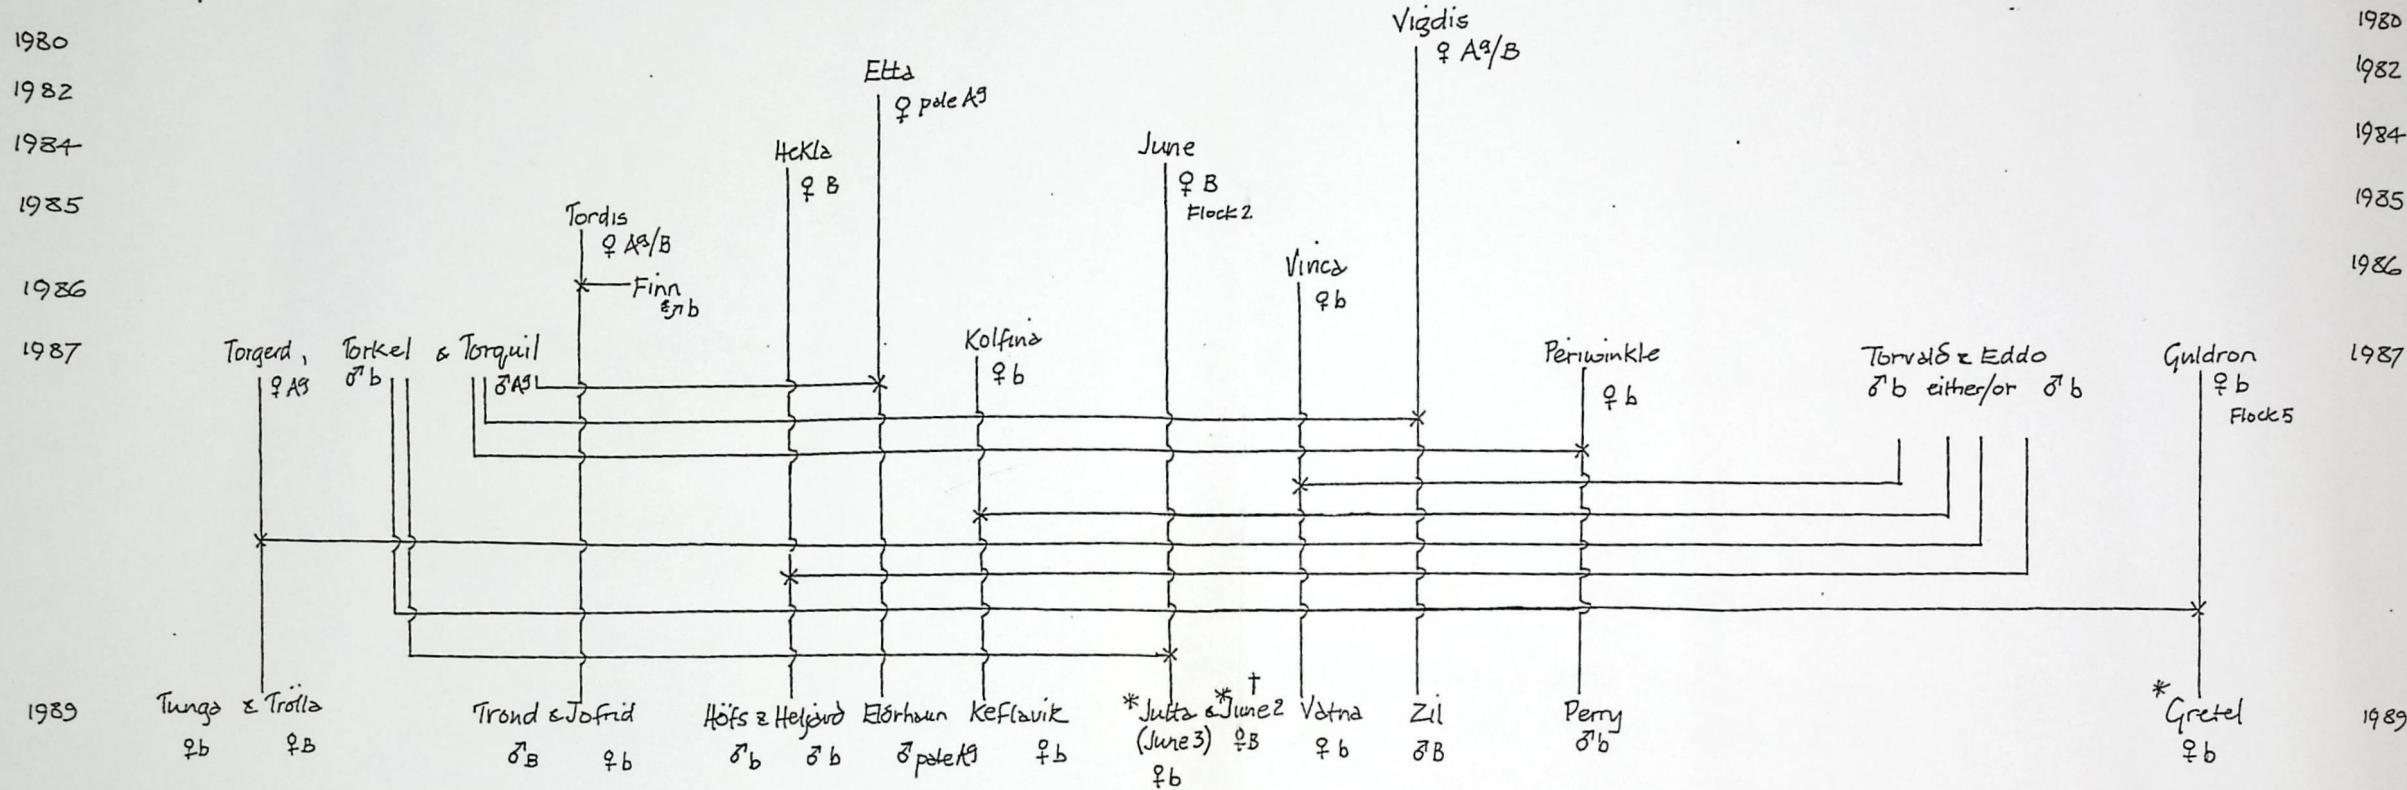

SECRETARY:

Flock 7

TREASURER:

Flock 22

As in the first year positions were filled to satisfy bank requirements and are not elected by the membership.

1989 Pure Icelandic lambs

* All except those marked thus were bred in Flock 1

Flock 4

This complete flock is in the Stock Sale list as [REDACTED] no longer has access to the land he was using and is also moving house and has had to reluctantly give up the flock he has been building up since 1986. This year he has had a number of broken colour lambs and has kept the 15/16 brown/white ram lamb entire. He is therefore of interest to anyone wanting to concentrate on broken colour. *

[REDACTED] ewe Honeburch came 2nd in both the Crossbred shearling ewe class and the crossbred wool on the hoof class at the Horton Park show. She looked lovely. Congratulations.

Our stand at the Small Farms Show, Stoneleigh at the beginning of October, as this is our 1st venture in this direction, has kindly been made available to us free of charge.

The importation of stock from Denmark to increase bloodlines has made some progress, costs now being to hand. [REDACTED] has offered to help [REDACTED] in this. Please contact either for further information. *

The next World Congress on Coloured Wool is to be held in this country in 5 years time. If anyone has any ideas about what sort of contribution we can make for it please contact [REDACTED] or myself.

The Sheep Farmer have indicated that they will include a feature article on Icelandic sheep in a future issue and this is being worked on. Any information you may have about the breed in Britain which you think might be interesting and informative and could be included should be sent to [REDACTED] (e.g. How does the breed do in your area? Do you find that lambs grade? etc)

We hear that the lovely little ram lamb who was on the Coloured Sheep Breeders stand last year and who subsequently went to live on the island of Coll, despite a struggle to get through the winter in his new environment and being thought to be too small to achieve anything, fathered about 19 or so various coloured offspring! [Sorry about the long sentence]

ADDITIONAL INFORMATION WHICH HAS COME TO LIGHT SINCE PRINTING

1.

Flock 4

See news item & stock sale list re this flock. * & Update

2. Flock 10

Vashti is out of Florian and Vigdis
 Dessie Bjarni and Dess

Add also

Helga 86 b Pure out of Bjarni and Hekia

3. Flock 18

Y7/651 is named Dawn
 Y12/652 is named Cinders
 Y8/656 is named Snowdrop

4. Flock 14

Trehill Dnyx is (Tag 1) and is 7/8 Icelandic 1/8 Dorset
 Polly is (.. 5)
 Ivy is (.. 9)
 Poldoll is (.. 7)
 Nellie is (.. 8)
 Garnet is (.. 4)

5. Flock 16

The ewe not put to the ram in Autumn 89 with no description is

Stormy 12 04 97 b 7/8 1/8SH out of Biarni and Storm

6. Colour

6 point: This is a designation given to sheep who have face/head, feet and tail in a different colour to the body. Often this is white, but in Icelandic sheep seems to occur in tan (apricot, pale brown) as well. Lambs born with this white/tan colour pattern may also have tan patches on the body which disappear as the lamb loses its birth coat.

4 point: This describes one with feet of a different colour to the body.

1 point: Refers to facial/head colour difference.

etc.,

CORRECTIONS

1 STANDARD

Fleece weight: This was taken from an Icelandic pamphlet.

Mrs Joly has sent the following amended figures:-

4k/81b (A up to double the quantity with cross-breeds)

2. FLOCK 12: The breeding for Caradog should be from a dam called Bryony who is

1/8 Dorset Horn, not Harriet 3/4.

His degree of purity is thus 15/16

Heidi is also out of Bryony

Abigail is out of Megan

Peppie and Dreamer are out of Kate not Katie

3. Flock 11: The names of ewes in this flock were given by the Waldrons who purchased them from [redacted] from whom we have been unable to extract details but who may have had them from the Sheddoo family who acquired the following stock from [redacted]

Isabel 1/2 Shetland
Sumac "bit of Dorset" plus lambs
Boudica 1/2 Dorset plus lambs
Gemma 1/2 Shetland

We have heard recently that [redacted] still has 1 black and 2 brown rams of unknown purity % which he uses himself and which have also been used by the [redacted] on their Shetland stock with the following results:

1988	1 Ag/B ewe and 1 cream with brown points	ewe
1989	4 Ag, 3 B, 2 b and 1 Mouflon(Soay) pattern=Aw/A4	

SUGGESTIONS

1. Percentage purity rather than fractions in the appropriate column.
(I realised after printing that the fractions were not easy to read and have done subsequent ones differently. Using percentages would also solve this.)
2. Wethers listed under males in addition to rams, (done in this supplement)
3. The description column should be divided into 3; (i) a wider colour one to allow a fuller description until a satisfactory comprehensive one evolves,
plus separate columns to indicate (ii) Horns or Poll
(iii) Status (single, twin etc)

Colour and Pattern

As there is obviously a relationship between Icelandic and Shetland sheep, the following information on colour and pattern in the Shetland breed should be of interest. Each has a Gaelic description of one word. There is probably a similar vocabulary in Icelandic to describe the appearance of their sheep but I have not yet been able to acquire any information about it.

Below the list are one or two Norse terms which show the obvious relationship between it and the Shetland terms. (Both breeds share the same Scandinavian ancestry).

Can we come up with a succinct English version? !

↓ see note p.10

Gene		Term	Colour	Pattern
Awh/A1	Awt	White		
Ag/A2	Alg	Esset	Ash grey	
Ag/A2	Ag	Emsket	Dusky bluish grey, skialet	
		Himsket	
		Imet	
Agg/A2	Agg	Shaela	Gotland blue(steel)	
	Adg		grey. like black frost (dark tips)	
Ag/A2	R	Musket	Brown grey, skialet or mouse. (roan)	
a /A5	Aa	Self		
B+/B1	B		Black	
B-/B2	Bb		Brown (chocolate, chestnut)	
b/		Mioget	Light moorit	
		Muret	Moorit, yellow brown	
		Mured	..	
		Rodret	Red moorit, red brown	
S			unbroken colour	

note p.10

Gene		Term	Colour	Pattern
Ab/A3	A ^b & A ^{db}	Katmoget Bioget		Reverse Mouflon Light back, darker sides & belly, or converse.
		Burrit		Face/underparts lighter, dark tipsto staple
Aw/A4	A ⁺	Gulmoget		Mouflon, dark back light underparts
		Burrit		As gulmoget or dark back, light underparts & hindquarters, possible dark tips to staple.
Agw/Ab	A ^{gt}	Grey Mouflon		Grey + lighter underparts.
s	Ss	Bersugget		Irregular patches of different colour. variegated, broken colour
		Broget		Black & white.
		Bielset		Circular band of different colour round neck.
		Ringet	
		Ilset	
		Blaget		Lighter shade on outer part of wool fibre, especially in moorit & dark brown.
		Blaeget	
		Blettet		white spots on nose & top of head
		Bleset		dark colour with white stripe down forehead or converse
		Glomet		..
		Glomek		..
		Snedled/Sneedled		..

Gene	Teræ	Colour	Pattern
	Bronget		Dark colour with lighter chest or reverse.
	Brandet		Stripes of another colour across body
	Flecket		White patches or white & colour patches
	Fronet		Black spotted with white head & black spots round eyes.
	Grimet		?
	Ilget		White + spots of another colour (usually grey or bluish)
	Iset		Dark colour + white fibre (bluish from distance)
	Joglet		Black spectacles on white sheep
	Katmollet		Light coloured nose & jaws.
	Kraiget		Neck different colour to rest of body.
	Kranset		Dark colour with white round eyes & neck.
	Krunet		Dark + white patch on top of head.
	Lendet		Black & white or white stripe loins or vice versa.
	Marlit		Various shades of different colours, mottled, white + dark spots
	Mirkface		White with dark patches on face

Gene	Term	Colour	Pattern
Mogeface		Dark & light patches round	
	Mullitrigget		mouth, eyes & on ears.
	Sholmit		Spinal stripe Any colour except white, with white face.
	Skeget		Stripes of different colours on sides
	Sairslet		Dark with white stripe round mouth, head or neck.
	Sokket		Legs different colour to body
	Sponget		Dark colour + small white spots or reverse
	Snaelit		Light body, snow white face
A ^e P	Yuglet		Colour round eyes different to body
	Rigget		Different colour spine stripe
	Vandet		Black or brown, zebra stripe sides

[Norse	Old Norse	English]
[Moraud	Mbrauðr	red-brown]
[Kgttr	cat]
[Magi	belly, stomach]
[Hela		hoar frost]

↓ The symbols given 1st were
in usage until 1988 at
which point COGNOSAG
(Committee on Genetic Nomen-
clature of Sheep & Goats)
decided on the standardiz-
ation of the nomenclature
of sheep colour loci as
given under the arrow ↓

UPDATE

Flock 4

We were fortunate in finding homes for [REDACTED] whole flock and thus the prospect of sending them all in to market was avoided. The broken colour ram lamb which had been born rather late unfortunately died, however, the broken colour ewe put to Sampson again has thrown another brown and white (ewe) lamb this year.

Horton Park Show 1990

There will be a joint class for Gotlands and Icelandics to be judged by [REDACTED] who won a Churchill Scholarship to study Northern short-tailed sheep breeds and visited Scandinavia and Iceland.

Small Farms Show 1989

Great interest was shown in our stand and we enjoyed a busy 2 days. It was nice to put faces to names and voices by meeting so many of the members we had telephoned and written to during Autumn 1988. We hope to be at the show again in 1990 and would welcome any offers of help and be pleased if you only came to have a quick chat.

Sheep 90

We had hoped to be represented here but discovered that all stock on stands had to be maedi visna accredited and that the cost was more than we could afford. Does anyone have any ideas on sponsors to help us next year?

Import of stock from Denmark

This was successful and a ram and 2 unrelated ewes were on [REDACTED] (Flock 17) by late Autumn. The reason there was no flock return from her for 1989 was that she was reducing the percentage purity with no 100% ram before the import. She will gladly give details of costs and procedures involved to anyone interested.

Import from Iceland

This was well in hand with enough orders for the plane to be viable and visits to the farms to select stock are to be made in August followed by the arrival of the sheep in September.

Membership

It is good to see our membership increasing and from the 26 in 1988 we have grown to 42 with about 6 or 7 more who have purchased stock but not become members yet. We feel that it would be nice if we could find a suitable date and venue to meet and chat, have a meal, a drink, look at photos (sheep of course) and exchange stories. Does anyone have any ideas for such an event? We feel that it might be the occasion to put the committee on a proper basis and we would welcome anyone who would like to help in any way.

Please keep the flock returns coming in so that we can extend the 100% Pedigree chart.
