## Amendments to Entries in Earlier Flock Books for Flock 45

In some cases the tag was a different colour, but colour was never stated in the Flock Returns. In other cases the ear tag numbers have been misread when the Flock Return or Flock Book was compiled. The information below is to set the Pedigree Records straight as far as possible.

- **169** that lambed no.25 in 2002 should read **189 (?)**
- **147** of 1993 was slaughtered and never used for breeding - call it **147A**
- **147** of 1998 (ram lamb) was used for one season then slaughtered - call him **147B**
- **164** is a badgerface, born in 1995 – call her **164A**. She lambed in 2000 – lamb registered as no.2.
- **164** sold to Flock 89 is a grey, she was born in 1999 – call her **164B**
- **127** of 1996 is brown/black. – call her **127A**
- **127** of 1999 is grey, sold to Flock 88 – call her **127B**
- **168** of 1995 was a ram that was never used – call him **168A**
- **168** of 1999 is a ewe - call her **168B**
- **173** of 1995 is black, was sold to Flock 71 in that year and later died. Call her **173A**
- **173** of ? had a ewe lamb **128** in 1999. This must be another misprint. The ewe lamb died.
